## Summary

---

Developed a functional AI chatbot using the MERN stack (MongoDB, Express, React, Node.js) following an online tutorial. This project solidified my full-stack development skills, from database design to user interface creation. I am an initiative-taking and purposeful high school student eager to leverage these skills and effective communication/teamwork abilities to contribute to a fast-paced tech environment like RBC's Summer Tech Labs and build innovative applications. As a volunteer Sport Data Technician at Karate Ontario, I collaborated effectively with referees and tournament officials to ensure accurate and timely data entry for competitions. This experience honed my communication skills and ability to work effectively within a team under pressure. Seeking an internship to gain practical experience and become an asset to your team.

## Skills

---

### Soft Skills

- Strong Written and Verbal Communication
- Active Listening
- Teamwork
- Problem-Solving
- Critical Thinking
- Adaptability
- Initiative
- Work Ethic
- Professionalism
- Time Management

### Technical Skills

- Front-End Development:
  - Proficient in React.js, Typescript
  - JavaScript, HTML, CSS (including Sass), Material UI
- Back-End Development:
  - Basic knowledge of Node.js
  - Basic Knowledge of MongoDB

### Other Skills:

- Git (Version Control)
- Familiarity with Data Analysis and Visualization concepts
- Basic knowledge of Linux

## Experience

---

Ontario Karate Federation | Mississauga, ON

### Karate Referee

06/2022 - Current

- Led a team of referees to ensure fair play and adherence to safety regulations during high-stakes competitions with over two hundred athletes.
- Enhanced pre-match verification procedures to ensure all competitor information was accurate and complete, leading to a significant reduction in on-field disputes and delays.
- Enhanced communication and collaboration among referees by mentoring assistant referees on positioning and signals, leading to a 15% decrease in rule interpretation disputes in competitions managing over fifteen events.
- Made critical decisions in real-time by calling fouls, warnings, and stopping play for injuries or dangerous situations, ensuring the safety

of a large number of athletes.

Panacea Karate Academy | Mississauga, ON

**Karate Instructor**

06/2021 - Current

- Developed personalized training programs by evaluating individual abilities and customizing routines to maximize skill development and fitness goals.
- Improved student engagement by exercise variations, leading to a 15% increase in class participation.
- Utilized data analysis by tracking student progress in MS Excel to tailor training plans and measure effectiveness.
- Ensured a safe learning environment by implementing and enforcing safety regulations, promoting responsible use of equipment.
- Leveraged digital marketing skills by designing posters, flyers, and infographics using Canva to promote the club, its programs, and internal tournaments.
- Led a team of students through belt grading exams, providing guidance and mentorship.
- Coached and mentored students at multiple Karate Ontario provincial tournaments, achieving numerous first-place finishes.

Tim Horton's | Mississauga, ON

**Team Member**

05/2020 - Current

- Maintained a well-organized and efficient work environment by ensuring proper product labeling, stocking based on planograms, and notifying supervisors of inventory shortages.
- Provided excellent customer service by greeting customers, answering product inquiries, and resolving order issues efficiently through returns and refunds.
- Developed strong teamwork skills by assisting new employees during training and collaborating with colleagues to ensure smooth operations. Demonstrated proficiency in operating computer systems by using POS systems and inputting data into company programs.

## Education and Training

---

John Fraser Secondary School | Mississauga, ON

Expected in 06/2024

## Extracurricular Activities

---

Computer Science Club (2023-Present)

- Developed a first-place winning Time Tracker web application using HTML, CSS, and JavaScript in a school-wide coding competition. (Highlights achievement, technical skills)

Data Science Club (2024-Present)

- Currently developing a data science project with a team member to compete in a club competition.

## Awards

---

- Ontario Karate Hall of Fame
- 13 Time Ontario Karate State Champion
- 2 Time Saudi Arabian National Champion

## Volunteer Experience

---

## **Sport Data Technician at Karate Ontario**

Mississauga, Ontario (April 2020 - June 2022)

- Ensured accurate and efficient data entry for karate competitions, utilizing a database system to record athlete information, scores, and winners.
- Troubleshooted technical and database issues to maintain smooth tournament operations, demonstrating problem-solving skills.
- Provided clear and timely communication by announcing tournament divisions, results, and bout outcomes to participants.
- Supported a positive event experience by greeting participants, answering questions, and enforcing COVID-19 protocols.
- Contributed to volunteer development by assisting in training new volunteers.
